

# Shibboleth/InCommon Update

RL “Bob” Morgan  
University of Washington  
CSG, May 2007

# Shibboleth Project

- nearing Shib 2.0 release
  - SAML 2.0, authn requests, logout, Java SP
  - large team assembled for push to release
- InfoCard
  - new paradigm signon method
  - not just Microsoft CardSpace
  - uses WS-\*, sort of
  - first step in Shib support is clarifying what to do
- Shib CAMP, Portland June 25-27

# InCommon

- 50+ participants (35+ univs, 15+ partners)
- InC-\* community WGs
  - Apple, re iTunesU
  - library services, re using Shib with licensed content, search, citation mgt, etc
  - student services, re federation opportunities in admissions, transcripts, enrollment verification etc
  - US Gov, re E-Auth, NIH, Dept of Ed
- Total HE federations: 15 or so, 20M users ...

# OpenID

- [openid.net](http://openid.net)
- “user-centric” Internet identity
  - by bloggers, for bloggers?
  - evidence of popularity
  - yet another thing to support?
  - helps solve guest problems?
  - new paradigm that will sweep away existing identity approaches?
- Advanced CAMP, Portland June 28-29
